

# Manufacturer's Certification Statement

2250 East 33<sup>rd</sup> Street • Erie, PA 16510 • 800-458-2244

Issued June 7, 2009

Congratulations on your decision to invest in high quality thermally efficient Seaway Encore windows and/or patio doors! Seaway is proud to have been an Energy Star partner since 2001, producing superior quality, energy-efficient windows and patio doors. The recent amendments to Sect. 25 of the Internal Revenue Code, enacted by The American Recovery and Reinvestment Act of 2009, extend tax credits of 30% of the product cost, up to \$1,500 for the purchase of qualified thermally efficient replacement windows and patio doors.

The following Seaway Encore window and patio door products, when manufactured with the appropriate high performance glass packages, are Eligible Building Envelope Components that qualify for the credit allowed under § 25C. These Seaway products will meet or exceed the U factor  $\leq 0.30$  and SHGC  $\leq 0.30$  established to qualify for the tax credit. You can verify this by checking the NFRC sticker applied to the glass on each window or patio door.
