

Manufacturer's Certification Statement

2250 East 33rd Street • Erie, PA 16510 • 800-458-2244

Issued June 7, 2009

Congratulations on your decision to invest in high quality thermally efficient Seaway Prima Vista sliding patio doors! Seaway is proud to have been an Energy Star partner since 2001, producing superior quality, energy-efficient patio doors. The recent amendments to Sect. 25 of the Internal Revenue Code, enacted by The American Recovery and Reinvestment Act of 2009, extend tax credits of 30% of the product cost, up to \$1,500 for the purchase of qualified thermally efficient patio doors.

Prima Vista sliding patio doors, when manufactured with high performance Low E, Argon gas fill, and a premium warm edge spacer, are Eligible Building Envelope Components that qualify for the credit allowed under § 25C. Prima Vista sliding patio doors will meet or exceed the U factor ≤ 0.30 and SHGC ≤ 0.30 established to qualify for the tax credit. You can verify this by checking the NFRC sticker applied to the glass on each patio door.

Please consult your tax advisor for specifics on eligibility and claiming the Energy Tax Credit, and keep this Manufacturer's Certification Statement with your Prima Vista patio door receipt in your tax records as proof of the patio doors' eligibility for the tax credit.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.

Thank you for choosing Seaway's Prima Vista sliding patio doors!

Sincerely,

A handwritten signature in blue ink that reads 'Jana G. Goodrich'.

Jana G. Goodrich
Vice President
Seaway Mfg. Corp.
