

Year-round Sunrooms

Consider the Possibilities

CREATE YOUR OWN *Personal Paradise*

Take Pleasure in the Outdoors, Without Worrying About Annoying Bugs or Inclement Weather

Now you can live the dream in your own Seaway Sunroom, where a gracious, unhurried lifestyle awaits you. Before your eyes, your living space expands to embrace the comfortable manner of living you have always imagined.

Envision the tranquility of enjoying nature from the comfort of your own cozy sunroom. Seaway Sunrooms add beauty and value to your home and quality to your life... all at a price thousands less than conventional construction.

You can easily transform your existing patio or deck into a comfortable, maintenance-free environment that perfectly fits your lifestyle and budget. Consider the possibilities: a family recreational room, home office, exercise or hot tub area, or the perfect place to curl up and relax. Create a vacation getaway in your own home or a party place that will be the envy of your neighborhood.

In Your Own Home

in your Seaway Sunroom?

G R A N D V I E W[®]

"A true custom room, built exactly as you want it."

ONE ROOM

that can change the entire character of your home.

A GrandView® Sunroom is a durable, maintenance-free alternative to a conventional room addition and will look like it was part of your home's original construction. It provides tremendous design flexibility and is custom designed and custom built on-site to meet your needs. A Seaway GrandView® Sunroom offers a cool respite on hot summer days and a comfortable retreat on the coldest days of winter.

A Seaway GrandView® Sunroom is an excellent investment and is more affordable than you may think. Increase your home's value while adding living space for your family. And, by combining the strength of aluminum and the warmth of energy efficient vinyl windows and doors with tempered, high performance Low E glass, GrandView® Sunrooms are built to withstand even the harshest climates.

- Standard configurations include 2 or 3 lite sliding windows, sliding patio doors, and swing entry doors. Maximize your viewing area with glass trapezoids, transoms, and glass kneewalls. Or, increase your privacy with dent-resistant wall panels.
- Choose from a gable roof style (peaking in the center) or a studio roof style (sloping away from home) with aluminum or shingled finish to match your home.
- A GrandView® sunroom is a true room addition with full, hidden electrical options available.
- GrandView® sunrooms come standard with the highly coveted, SeaClear window screens. In addition to superior strength and durability, the SeaClear screen also offers increased visibility and light transmittance, improved air flow, and maximized insect protection.
- With GrandView® Sunrooms, you have all the interior design options of a conventional room, including: cathedral ceilings, window treatments, wall decorations, wood flooring, ceramic tile, and carpeting.
- Offered in Euro White or Beige to coordinate with your home's exterior.

Euro White

Beige

GrandView's Exclusive Benefits for Year-Round Enjoyment

GrandView's windows and doors have a unique contoured exterior design to enhance the classic elegance of any home. Windows and doors are fully fusion welded at all corners for maximized strength and prevention of drafts and water leakage.

GrandView® sunrooms use the highest quality windows available, constructed with energy efficient, SeaClear screens, heavy duty window locks, a triple interlock, and vent latches for added security for children and pets. Sashes are pocketed deeply into the frame for strength and security, yet lift out for easy cleaning.

Optional Glass Kneewalls and Trapezoids – Enjoy a maximized viewing area of your property and the outdoors.

Standard Dent Resistant Wall Panels – 3-1/4" thick insultherm, high impact wall panels provide support, energy efficiency, keep your room quiet, and reduce the chance of denting on the facade of your room.

Thermally Improved Extrusions – All heavy duty GrandView® aluminum sunroom components are thermally improved with a nonconductive external element barrier, isolating the interior of the room from the cold winter and hot summer temperatures. Hollow air spaces are fully filled with EnviroTherm foam insulation for maximized energy efficiency.

comfort

impressive

Insulated Composite Roof System with Batten System Construction – Offers additional energy efficiency and strength. Even the weight of six feet of snow would not damage the roof panels.

High Strength 6005 Aluminum and Thermal Enhancement Technology- Twice the strength of commercial aluminum, allowing for superior structural integrity and a true thermal barrier.

Smart-ER, enhanced R value structural foam roof and wall panels for increased thermal performance, available as an upgraded option.

7/8" Tempered High Performance Glass Package with Warm Edge Spacer Technology Protects your family and provides a thermally efficient barrier from elements for energy efficient living.

MicroShield Antimicrobial Triple Weather Stripping- Maintains a weather-tight fit between the window sashes and frame with three layers of weather stripping. MicroShield maximizes resistance to air and water infiltration, mold, dust, fungi, pollen, and harmful bacteria.

All GrandView® sunroom windows are tested to NFRC standards and are Energy Star qualified in all 50 states.

custom designed

Foam Filled Corner Post and Corner Cover- Creates a well-insulated, sturdy support while augmenting the style of the room with its sleek contour design.

Optional High Efficiency Heat Pump Air Conditioning Units - Provide increased year-round comfort.

THE INSTALLATION PROCESS

Custom Designed and Custom Built, On Your Site

A concrete slab or existing deck forms the base of your sunroom. This area is quickly converted into a spectacular sunroom! Little to no excavation or disruption of your landscaping or home is necessary. Factory-trained, professional installers are considerate of every homeowner's needs and are careful to maintain a clean job site.

GrandView® Sunrooms are fully engineered, built to exacting tolerances, and each room is backed by a manufacturer's lifetime warranty. You can rest assured that you will have a safe and sound structure for years to come.

Install with confidence, enjoy in comfort. Your GrandView® Sunroom will quickly become everyone's favorite room in the house!

GUARANTEED *Manufacturer's Lifetime Limited Warranty*

Our lifetime limited warranty is our added seal of quality. It's complete coverage, backed by years of experience and a friendly customer service staff that can quickly resolve any problem.

BRING THE OUTDOORS INDOORS

classic

"It's The Best Decision We've Ever Made!"

"We just love our new sunroom. It is so relaxing and peaceful to be warm inside and watch the snow blowing outside. We've received so many compliments from friends and family on the quality and décor of our room. Our only regret is we should have done it sooner"

Jerry Hayden

"Our sunroom is an extension of our home. We truly live in it year-round and enjoy its relaxing benefits. We eat breakfast in it, use it as a game room; it's a great place to curl up and read a book – we even spent our Christmas in this beautiful, spacious room."

Diana, Andrew, and Kyle Stenglein

"Our qualified installers were dependable and got the job done quickly and efficiently. We spend all of our spare time in our sunroom. We have a fantastic view of the outdoors that we can enjoy year-round. It's the best decision we've ever made!"

Don and Millie Patterson

The Seaway Story

A LEGACY OF QUALITY

Founded in 1959, Seaway Manufacturing drew upon Erie, Pennsylvania's tradition of strong craftsmanship and engineering expertise to become a high-quality, recognized manufacturer of quality replacement windows, doors, sunrooms and storm products, in a variety of designs and styles. Through over 50 years of growth and change, Seaway remains committed to the highest standards of production, cutting-edge designs and unsurpassed customer service.

PRECISION ENGINEERED PRODUCTS

At Seaway, we continue to add the automated equipment and procedures that enable us to concentrate on the details that ensure quality, and result in delivery of maintenance-free products.

We are proud to design and manufacture products that minimize maintenance and improve a home's appearance, energy efficiency and investment value.
